

September 2023

Dear Parent/Carer,

## RE: Update to Maths Home Learning Provision

We are excited to inform you that from Thursday 21<sup>st</sup> September, your child will be using Sparx Maths to complete their weekly maths homework. Sparx provides a highly personalised weekly homework to students, tailored to their attainment level and working speed.

Your child's homework will be set on Thursday at 8am and due on Wednesday at 3pm every week.

### What is Sparx Maths Homework?

- Sparx provides personalised homework to each child, with questions that are challenging yet achievable, and tailored to their learning needs.
- The majority of each week's homework will be based on recently learnt topics, but it will also include some questions from previous topics to help reinforce their learning.
- Students access their homework on their online Sparx account, where they'll get immediate feedback for each question about whether their answer was correct or they need to have another try.
- While homework is accessed online, it is predominantly a written homework and students should record their work in their maths homework books that they will be given soon. Sparx has a "bookwork checks" system to help students form this habit.
- Every question in Sparx has a support video attached so that your child can get help independently.

### How can you help your child with their homework?

- Provide a quiet space for your child to focus on their homework each week.
- Encourage them to start their homework early so they can get help from their teacher before the deadline if they get stuck. To ensure no gaps form in your child's maths knowledge, homework is not marked as complete until all of the compulsory questions have been answered correctly.

- Check the weekly email you'll get from Sparx and praise your child for starting or completing their homework. Encourage them to finish it before the deadline if they haven't already done so.
- Try not to help your child with a question until they've had a go first. It is essential they try to complete their homework independently so that Sparx can give them questions that are at the right level for them. Remember they can watch the support videos if they need to.
- If your child is stuck on a question and are still unsure after watching the video please encourage them to seek help from their teacher. All teachers within the department are available to help, either at the end of lessons or at break/lunchtimes.

#### Videos/Information to explain Sparx further –
